MARIJKE VAN NUNEN AND INTERIORS

## OFICIOS ARTESANOS

The recently created Coqui Coqui Oficios Artesanos homeware and travel line, inspired by Coqui Coqui's lifestyle, showcases accessories and foldable furniture for the home, as well as pieces in suede for heritage travellers and family adventures.

The collection is produced with 100% Mexican fibres and materials such as: pure cotton, *sansevieria*, suede and wood to celebrate a primitive luxurious way of living and travelling. Each product is created from the beautiful Mexican traditional culture that involves the Mayan beliefs, the Franciscan colonial style, the remains of the European vibe combined with the minimalism of modern society - to fulfill the needs and requests of our guests and visitors.

This concept was born, with thanks, from the needs of friends, guests and clients who have experienced and appreciated Coqui Coqui at the beach, in the jungle, walking through colonial little streets, and in the eclectic vibe of the decadent Yucatán's capital.

# HAMACAS

## *Hammocks*

The *hamacas* are one of the most significant pieces from the Yucatecan culture: re-inventing the concept of relaxing, in a beautiful and natural way, creating *hamacas* made of *sansevieria* with long fringes. *Sansevieria* is a plant used by only few remaining artisans who still know and value the technique of making threads from its leaves. Its fiber is strong and durable, becoming softer and more luminous when using it in your daily life. They are produced in a variety of colours ranging from black, chocolate brown, and sand beige to the green-blue colours of the sea.
